REDINGTON & O.'S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to persons recovering from debility whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

STOP THAT COUGHING!

SOME OF YOU CAN'T, and we pity you. You have tried every remedy but the ONE destined, by its intrinsic merit to supercede all similar preparations. It is not surprising that you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefitted by the surprising curative powers of

NEWELL'S PULMONARY SYRUP

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S PULMONARY SYRUP

has cured thousands and it will cu YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

SRWING MACHINE.

Copy of the Report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

Highest Premium! Gold Medal!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co.. or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

THE AMERICAN JANUS.

If the following statement of Judge Kelley of Pennsylvania may be relied upon, the President has not changed his policy, but practiced duplicity at the start, and was then secretly committed to the very course he has since pursued:

"I hastened to Washington immediately after the death of Abraham Lincoln, and when yet Mr. Johnson was resting under the hospitable roof of the Hon. Samuel Hooper, of Boston, holding his executive sessions in a room of the treasury building, ere the widow of the late lamented President had left the White House, and there with a patriotic gentleman from Arkansas—a man who, though he had fallen into the rebellion, soon dropped out, and had devoted his energies in promoting the Union cause, and I had a full and free conversation with Mr. Johnson. He then rejoiced that eight months would elapse, or nearly eight, before Congress would be called together. 'In the meantime,' said he, 'I, as President, have nothing to do but hold that territory under military government, and see by the powers of the army that the Union men, whether white or black, and the American citizens, whether of northern or southern birth, shall enjoy life in safety in all the conquered country. It is well,' said he, 'that so much time must elapse before Congress comes together; for the establishment of government over that country belongs to Congress, and in eight months the people of the two sections, intermingling with each other freely, will come to understand each other better than they have ever done, and we will all get to understand the colored people better than we do, and to know how far it would be safe to invest them with political power; for now that they are free they must enjoy political power.' I was rejoiced to hear such assurances as these. The President did me the honor to say that he spoke freely to me, because he wanted the people to understand that these were his views, and he thought I had opportunities for making them known. I had seen Charl s Sumner the night before, and he told me that in a conversation which he had had with the President that day, Mr. Johnson had made a similar statement to him. Said Mr. Sumner, 'Providence seems to have taken care of us and to have inspired Mr Johnson with the truth beyond the measure in which I was permitted to hope he possessed it. He takes the view that will make the North safe for the present, and ultimately give us a harmonious country.'

As I left the room I met General Carl Schurz, fresh from Gen. Sherman's army in North Carolina, with his stars bright on his shoulders, and the dust from Sherman's grand march to the sea, yet upon his war-worn uniform. After the close of this interview—I met him but for a moment—said he: 'The President is all right, if he don't talk a little too strongly.' Said he, 'I am afraid he doth protest too much, and the very vehemence of his protestation makes me fear the fidelity of his statements.' I met him the next day in Philadelphia, and in the presence of a gentleman in the Union League building, General Schurz and I compared notes and found that Andrew Johnson had talked to him as to me, and both as to Charles Sumner. A few days afterward I met General Steward L. Woodford and Gen. Littlefield, the one fresh from the command of the city of Charleston, and the other from the city of Savannah, Georgia, and I learned from one of them that he had heard from a Georgia gentleman who had been with the President and had an interview with him, that it was his purpose to overthrow the Radical party and recognize the National Democratic party. 'And,' said Gen. Woodford, naming some gentlemen from Charleston, South Carolina, prominent rebels, 'that is the statement of Mr. Johnson, as given to each and all of them, each separate and apart from the others.' Just think of it! Talking to prominent Union men of the North—men whose voices could be heard, men in whom some portion of the people of the North confided—begging them, Radicals as they were, to go out and endorse him and proclaim him in harmony with the North, while negotiating with the bloodiest handed rebels of the South to overthrow the party that had maintained the Union, and to build up the party that had brought on the war."

IMPORTANT SUIT ABOUT THE INCOME TAX.—A suit to test the constitutionality of the Income Tax law is pending in the Circuit Court of Sangamon County, Ill., transferred from the United States Court. The United States Revenue Collector for the Drstrict attached and sold the property of William Springer, in satisfaction of the Income Tax assessed by the Government, in pursuance of law, the payment of which he refused, on the ground that the law is unconstitutional, He now brings suit against the United States authorities to set aside the sale. The point made by Mr. Springer is that the tax so levied upon his income, gains and profits is a direct tax, and as such it is levied in violation of the Constitution of the United States, and particularly in violation of the third paragraph of sectiog one of article one, and of the fourth paragraph of the ninth section of said article—that taxes levied upon the income, gains and profits of individuals by the act of Congress have never been apportioned among the several States included within the Union, according to their respective numbers. nor have they been levied in proportion to the census and enumeration of inhabitants as required in the Constitution, and hence that the tax assessed against him is illegal and void. This is the first instance in which the constitutionality of the Income Tax law has been thus contested, though very distinguished jurists have questioned the authority of Congress. The case, we suppose, will go up to the United States Supreme Court for ultimate decision.

"WERE you ever abroad?" "Not exactly, but my mother's maiden name was French."

A BALLET-GIRL—HER MARRIAGES AND TROUBLES.—A few days since a "personal" advertisement appeared in a city newspaper, reading to this effect: "If Mrs. S—, lately Mrs. De la C., formerly Miss S. Y., will address X. Y., Station D, she will hear something to her advantage." The party alluded to in these lines has recently figured privately before the courts in some rather interesting matters of personal history. "S. Y" was originally a popular *danseuse* at one of the Broadway theaters. Possessed of a pretty face and a good leg, she danced herself into the good graces of a rich Spaniard, who was called "Count De la Cruz" though he had no claim to the prefix to this title. He presented his inamorata with bouquets and a cheap diamond or two, after the usual style; but she—not after the usual style—resisted alike, his art and his gifts, and refused to be his except on terms of marriage. Notwithstanding the protestations of his mother, who was as proud as a Hidalgo, De la Cruz consented to her conditions, and the ballet-girl became a wife. But the marriage proved unhappy in all respects; and it was no difficult matter to prove adultery on the part of the "Count" who soon wearied of his bride; a divorce was quietly procured before a referee, and the Spanish husband departed with his delighted mamma to Havana. Meanwhile, the semi-widowed wife, who was now free to bestow her affection where she would, was attracted by the attentions of Charles R., who was no Count, only a clerk in a lamp store. Charles, however, was stage struck, and having heard that S. Y. had absolutely appeared in public, in the full glare of the footlights, was immediately enraptured with his new acquaintance, and made love to her after the most approved fashion. But he found that he was destined to have no easy conquest; to the New-Yorker, as to the Spaniard, the lady's terms were marriage Charles R. nothing daunted, however, determined, though marriage was not in his line, to accomodate the lady with a mock wedding. He accordingly procured a person to officiate as priest, and the marriage-ceremony was performed with great unction. For a while the pair lived happily together, but one day the lady discovered the cheat, and indignantly denounced it. Among others, the employer of Charles R. became cognizant of his dark deception, and thereupon introduced himself to the notice of the unfortunate woman, and proffered his services to right matters. They were accepted, and through his agency a settlement was effected. It was ascertained that, if the woman so wished, the law would compel her deceiver to legally marry her, or would decide, in fact, that the parties were, to all intents and purposes, married already. But as the ballet girl indignantly scorned the idea of living any longer with the man who had so basely betrayed her, a separation was brought about; and in order that the young lady should not be obliged to live alone. The employer, who had been smitten with the charms of his *protege*, offered to marry her himself, which offer was accepted, and the ballet-girl of Broadway—the divorced Spanish countess and the mock wife—is now the partner of a well-to-do young merchant, the romance of her life and her troupes being probably over altogether.

BARNUM'S GORILLA—THE HUMBUG EXPOSED—AN INDIANIAN PLAYING "GORILLA."

The following communication appears in the Louisville *Courier*:

HENRYVILLE, Ind., October 15.

Your readers have read with interest the accounts of P. T. Barnum's African gorilla, which have appeared in your columns, and been published by almost every paper in the country; and considering the wonder and curiosity the subject has excited, I deem it my duty to inform the public that this great wonder is a humbug; yet we cannot but acknowledge a most ingenious one. The facts of the case, which are as strange as true, I shall relate as briefly as possible.

A resident of this place, a gentleman of undoubted veracity, has just returned from New York city, where he has been on business, and, on my promising secresy, revealed the circumstances below narrated, which my repeated solicitations have finally induced him to allow me to publish. He was in New York when the gorilla arirved, and the accounts in the papers excited his curiosity. The day before leaving Gotham he visited the wonder. It happened at the time of his visit (about five o'clock P. M.) that there was no one in the vicinity of the gorilla save the keeper Prof. Davidson. The terrible growl and snarls of the animal, which almost intimidated him as he approached the cage in which it was confin d, ceased instantly when he stopped before it, and to his great astonishment, the gorilla called him by name, and, seeming to forget its assumed character, evinced a desire to shake hands!

Prof. Davidson seemed all "struck in a heap" at this, and endeavored to take my friend away, but the latter, being of an inquiring mind, refused to go, and, addressing the gorilla (who appeared as any human would who had made a blunder), asked: "well, old fellow, how do you happen to know me?" The gorilla approached him as near as the bars of the cage would permit, and said, in a low tone: "I don't wonder, Charley, that you don't recognize me; and, considering the circumstances, I should not have spoken. I am your old friend F——C——, of T——, and was so overjoyed on seeing you that I could not resist the impulse to speak. I beg you not to mention this, and come round at ten o'clock to-night and I will see you." As some other persons were now seen approaching, Professor Davidson pulled Mr. Scholl away, imploring him to keep the secret, and making an appointment to meet him at nine o'clock. Mr. S. left with the frightful roars and growls of his friend, alias the gorilla, ringing in his ears.

Punctual to the hour of ten, Mr. S. went to the place of meeting, where he found Professor Davidson, who conducted him through a back passage to the Museum, where he found and grasped by the hand his friend F——C——, whom he had not seen for years, and from whom he learned the following particulars:

Mr. C——, who is a handsome young gentleman, about twenty eight years of age, was taken with the humbug mania on hearing Barnum lecture last year, and in a lucky moment conceived the gorilla scheme, with which he acquainted the "prince of humbugs," who immediately approved on seeing him get into a well dressed bear skin and imitate the actions of that animal. Plans were arranged and C——went to Africa in company with Prof. Davidson, and after landing, they, with considerable trouble and expense, procured the skin of a gorilla of the right size. This was nicely tanned with the hair on, and arranged to suit, and when arrayed in this novel attire, C——was a perfect gorilla. With his imitations of the actions and voice of the animal, together with the fear he inspired, which prevented detection. Although possessing more than ordinary strength, Mr. C—— has nothing like that imputed to the gorilla, and the accounts we read of it are merely gotten up for sensation. Mr. S. learned much else of interest, but space forbids my writing more. Before leaving Mr. S. was introduced to Barnum, who added his entreaties to those of Davidson and C——to keep secret, at least until he arrived home.

OVERLAND STAGING.—In regard to this subject the Virginia *Enterprise* says:

The gap between the Union and Central Pacific Railroads is steadily narrowing, and overland stage travel from Sacramento to the Missouri river will be reduced within two weeks to about nine and a half days. We are reminded of this by our Eastern exchanges, which are beginning to reach us in twelve or thirteen days from Chicago, and correspondingly from other points beyond the Missouri. The line of the Union Pacific Railroad is completed within a few miles of Cheyenne, at the base of the Rocky Mountains, and early next spring the cars will be running from Sacramento to the Little Truckee, thirty-five miles this side of Cisco. By that time seventy-five or one hundred miles of track will have been added by the Eastern Company, and the stage travel between the eastern and western termini to perhaps eight days or less. Meantime, Wells, Fargo & Co., in view of the cessation of Indian troubles along the route, have overhauled and put their stage line in first class order, and announce their determination to keep the road open the coming winter, and so arrange for the comfort of passengers that the trip from California to Omaha will be pleasant as well as economical. We are pleased to hear this, for there is no reason why, with but nine or ten days staging the overland route should not begin to divide the passenger traffic with teh Pannama steamers. Treaties have been made with the most of the hostile tribes east of Salt Lake, and the indications are that a permanent peace, by their removal to reservations, will soon be established with all of them. We are officially informed that from, and after the 15th of November the scheduel time between Austin and Cheyenne, or the end of the eastern division of the railroad will be seven days and between Virginia and that point nine days. The stations destroyed by the Indians the past summer have been rebuilt and the route has been restocked and placed in excellent condition. The Indians, we are informed by the superintendent of the western division, Len. Wines, have entirely disappeared, and no danger from them need be apprehended. The western division of the stage route—between California and Salt Lake—has always been well managed, and if the same order and punctuality can be infused into the management of the eastern division, complaint will cease and the route become what it should be.

Tracy, general superintendent, called together all division superintendents at Salt Lake a few days since and informed them that no pains must henceforth be spared to make the stage routes of Wells, Fargo & Co. creditable to the company and in every respect "first class." The Montana divison—from Salt Lake to Boise, Virginia and Fort Benton—is working satisfactorily under the management of W. H. Taylor, and the route may now be traveled with comfort and security. After the reduction of the schedule time on the 15th of November we shall expect to receive Omaha papers in ten or ten and half days.

BLUE MILK.—Mr. Snub perceived that the milk he was pouring into his coffee-cup was none of the richest; he said to his hostess, "Have'nt you any milk that is more cheerful than this?" "What do you mean by that?" "Why this milk seems overpowered with the blues."

The waterfall, originally a very graceful arrangement, is now rendered ungainly and unbecoming because of its enormous increase in amplitude. An honest Irishman asked a lady if she was traveling far?" "No. Why do you inquire?" "Because I see you have a large bag on the back of your neck."

The ladies in Paris are all trying to make their hair golden. It is the correct thing to call it "golden," but the right reading is "red." The cunning plan by which the color is imparted to the locks is a science which ought to be ranked as the "carroty'd art-ery," as being closely connected with the vein.

"Yes, Mrs. Muffin," said a visitor to her hostess, "dear little Emma has your features, but I think she has got her father's hair." "Oh, now I see," said dear little Emma; "it is because I have papa's hair that he wears a wig."

The New Bedford *Standard* says Jeff. Davis is now "fleeting like a cur with his tail between his legs." This is the reason the government is trying to cur[illegible] his might, we suppose.

DUTCH FLAT ENQUIRER.

SATURDAY, NOV. 16, 1867.

The Union party of California was wrecked in the late campaigns by the arrogance and blunders of those who, by unfair means, unhappily became its temporary leaders.—*Sac. Bee.*

Will the *Bee* please tell us who it means by "temporary leaders?" If it means Mr. Gorham, then let the fact be distinctly remembered that Mr. Gorham has been a leader from the first State Convention of the Union party. The editor of the *Bee* was in that Convention, and knows well that Mr. Gorham took as prominent a part in it as any other man, and that he has been from that day among the leaders of the party. The *Bee* should also remmeber that the preliminary steps taken by the legislative caucus which endorsed the call for that convention required leaders, and that of no mean skill and no small amount of nerve. Among those on the Douglas Democratic side in that movement, Geo. C. Gorham, Thomas Campbell and T. B. Shannon were the chiefs. W. H. Parks was in the legislative caucus, if not in the State Convention of 1862. The State Convention of this year was responsible for its own nominations. Who were the new leaders in that body? Judge McFarland and W. W. Stow were rival candidates for the chairmanship. Are either of them new leaders? Are Sargent or Pixley new leaders? John Dwinelle was for the first time in a State Convention of the party, and he nominated McCarthy for State Printer—not a popular man in the party. Is, therefore, Mr. Dwinelle a bad man? No, Mr. *Bee*; this charge that the party fell into the hands of bad men, new and corrupt leaders, cannot be sustained, because it is not true in fact. No man's word can make the charge good, nor can any proof be brought to substantiate it. The bad men in the party were those who did not support its nominees. The worst men in it were those who falsely charged the Convention and nominees with corruption, and thus induced good men to become bad by voting the rebel ticket or staying away from the polls. And those same men are still clinging to their destructive course by reiterating their stale calumnies against the leaders in the last campaign, and laying the blame of defeat upon them, while it lies at the doors of the bolters and apathists, who helped the rebels directly or indirectly. The bad men of a party are those who will not submit to the will of the majority—who must have their way and their candates, or bolt the ticket. Now we hear these same men declare that neither Bidwell nor Gorham should be put on the electoral ticket, and proclaiming beforehand that the people will not support them, which means that if they cannot dictate the nominees, they will *fight the ticket* once more. What worse can rebels do?

NO MAIL.—Many times within the last two months we have had no morning mail. We had hoped that the late rains and the rise in the river, would save us from the recurrence of the deprivation, but on this 15th of Nov. at half past 2 o'clock P. M. we have received no mail. Probably nobody is to blame for all this, but it is no less hard to bear. If we are not mistaken, those who carry the mail from San Francisco, to Sacramento, forfeit $1,500 for each failure to reach Sac. City by half past 6 A. M. daily, it may be the bond is changed now, but it was so formerly. As we write the cars come with the news that the Boat arrived in Sacramento at 11 o'clock this morning. The Hogs Back is the great offense. The river is filling up every year, and we cannot expect the Steam Navigation Company, to dredge it at its own expense. The only source of comfort is, the hope that a railroad will be completed before another dry season cuts us off from the Bay City and the lower country. We have long been promised the Vallejo Road but it comes slowly. We hear of a new survey of the Western Pacific, and our ardent cry to both these Companies is, push along, keep moving.

JUST AS WE PREDICTED.—The independent press, pretending to speak for "the people" is already dictating who shall not be presidential electors. The Marysville *Appeal* proposed the names of John Bidwell, and George C. Gorham, as two are to be chosen to vote for Grant for President next year. The *Bee* replies, and says no. The *Union* copies the article and adds, "It will not do." Who has authorised these bolters to speak for Union men? Their party is composed of Fay, Nickerson, Col. Jones, and a few more. Do they fondly dream that Grant, or any other Union man, wants any of "their people" as electors, or any of their dictation, advice, or suggestions? Not if they know true men.

A GREAT WORK.—San Francisco is getting short of water. A new company called the S. F. Water Works Company, has been formed with a Capital Stock of $6,000,000, to bring in the Pescadero creek, from a distance of 45 miles South of the City. It is estimated that at an expenditure of $4,000,000, 30,000,000 gallons of water a day can be furnished.

The true policy for the Bay City is to bring the water of Lake Tahoe down the Sierras.—Then they will have enough and of the best quality too.

Speaking of circuses a lady remarked that "in her native state they were not allowed, nor saloons either." "Why?" exclamed an old lady present, "are they all christians there? What an awful place to live in!"

GAMBLING.

It seems to be the prevailing opinion that a considerable number of our young men, and some also old enough to know better, give a good deal of their time and money to poker. My young friend, is that the best use to make of them? Admit that you have leisure, that time drags heavily, that you must pass your nights and days somewhere. Admit that it requires talent to make a good poker player; that it sharpens your wits, and teaches you to conceal a bad hand and a fluttering heart under an imperturbable and impenetrable countenance. Admit that the game owes you nothing, or even that you are ahead of it and can make money by it, what then? Is it worth all it costs you? Can you take another's money without giving a fair equivalent, and not become a worse man in the transaction? Does the very highest genius developed by poker playing add any good to the world? And does not our very living in the world imply that we are to bring good into it, to the full measure of our capacity? And do we make ourselves, or anybody else, greater, or wiser, or better by poker playing? Is a man a better son, brother, father, neighbor or citizen by being a good poker player? On the contrary is he not likely to be worse? Does it not, in fact, make him worse in all these respects? And besides, does it not injure his capacity for business in every department? What business man wants a clerk or or a partner who is a poker sharp? What people want such a man for office? What girl for a husband? What parent for a son-in-law? No, my young friend; better chop wood, dig tunnels, sink shafts, sweep the streets, or do anything to earn a meal or an honest dollar. The day has gone by when society will tolerate a gambler in any position of trust, or give him their confidence or esteem. Any evil practice leaves its impress upon its victim, but few more thoroughly demoralize a man than gambling. To take money and give nothing in return, is so complete a violation of one of the first principles of morality, that when a man has a conscience to do it, he can do a great many other wicked and inhuman things quite easily. He can soon be heard to say that the world owes him a living, and a good one at that; that the world is a goose to be plucked, and he is the best man who gets most with the least exertion. He learns to play all the advantages, and despises those who have scruples against it. To ring in a greenhorn and fleece him without mercy or compunction; to take any man's last cent, and help him get drunk and drug him to do it; to carry a derringer, and use it on a comrade who speaks too much truth—yes, my young friend, it is a great deal better to be a good digger than a good poker player.

AT a regular meeting of Mount Carmel Lodge, No. 155, F. & A. M., held at Red Dog, Nov. the 7th, A. D. 1867, the following preamble and resolutions were unanimously adopted:

WHEREAS, Our beloved brother, John Hartsell, has been removed by dispensation of the Supreme Grand Master from our Lodge to the Grand Lodge above, and

WHEREAS, He was endeared to us by many ties of kindness, brotherly love and sincere affection, feeling deeply his loss, we offer this tribute of respect to his memory.

Resolved, That the announcement of the death of our deceased Brother in the prime of life and vigor of manhood, filled our hearts with sorrow and regret.

Resolved, That in his death society has lost an esteemed and respected citizen, Masonry one, who, while living, labored to fulfill all the duties which its obligations imposed.

Resolved, That as a token of our sympathy and heartfelt grief, this Lodge adopt the customary symbols of mourning, and that the members wear the usual badge for thirty days, remembering that though dead, his memory still lives, and will be cherished by us to the close of life.

Resolved, That we tender to the relatives and friends of deceased in a distant land, our warmest sympathy and sincere condolence.

Resolved, That a copy of the above resolutions be printed in the Nevada *Transcript* and Dutch Flat ENQUIRER, and that a copy be sent to his surviving relatives. MILTON COMBS, Sec'y.

WE PASS AWAY.—The reaper Death is following us all with his keen sickle, but he seems to come oftenest where the fairest flowers grow. Twice within a few weeks has he entered one household, taking the youngest and eldest child from earthly love and care. But in neither case was he an unwelcome visitor to those he sought. The babe, all unconscious, sleeps to wake in heaven. The child of eight years knows his presence, but fears it not. "He said, let them come unto Him, and I am going to Him—mamma." With these words often on her lips she passed to the garden of the Lord. What an exemplification of faith—simple and sublime. That Christ said it was enough. Such faith unbars the heavenly gates. Christ has also said in the same tender voice that bade little children come, "To every one that thirsteth come!"

"God knoweth best whom to call to go;
God knoweth best whom to leave below;
Blest be the name of our God, we say,
Blest when He gives—when He takes away."

EXEUNT ROBBERS.—Kelly, Brannan and two others attacked a camp of Chinamen near the Summit last week. The Johns offered to give $50, the highwaymen wanted more, and they got it. Kelly was killed, and Brannan tied and given over to punishment, while the other two escaped. Brannan is now in jail at Auburn. Both K. and B. are old offenders.

LETTER FROM YOU BET.

YOU BET, November 14, 1867.

EDITOR ENQUIRER—Once upon a time you had a correspondent in this thriving town, but who, after a time, laid by the pen, and has since been forever silent.

Being of opinion that a few words from this locality may be of some interest to the many readers of the ENQUIRER, I institute myself in the place of your former correspondent, "Local," for a brief spell, and pass over to you such items as may come under my observation.

During the Summer months mining, as well as every other branch of business, has been dull, and in consequence thereof times comparatively hard.—Water has been scarce, and the mills have been obliged to run on half time. Since the late rains, however, the supply of that needful agent—water—has increased enough to run most of the mills on full time. At present there are five mills for crushing cement run by water power, on Brown's Hill and Wilcox Ravine, all within half-a-mile of this place, employing an average of 25 men to the mill. Mr. A. Neece, of the firm of Neece & West, at Brown's Hill, and the owners of one of the richest claims on the Blue Lead, has purchased the old Cozzens & Garber steam mill and mine, on Missouri Canyon, between this place and Red Dog, for the sum of $12,000. This is the only cement mill now run by steam, water power being considered the cheapest for crushing cement, where he is now finding good pay gravel, but the claim is not sufficiently opened to take out pay dirt enough to crush more than one or two days per week.—However the owner expects in a short time to put on a full complement of hands to run the claim night and day. The old and well known Brown claims, on Wilcox Ravine, are still paying well-By some these claims have been considered as "all worked out" more than one year ago, yet Mr. G. S. Brown, the present owner, has been working them constantly, night and day, taking out from $1,500 to $2,000, with an average expense of $400 per week. Yesterday I was shown in this claim some of the richest cement I ever saw, and from all appearances there was plenty of it. Mr. Brown assures me that he has good paying ground to last him for three or four years, and pay as well as it has the past twelve months. The Mallory brothers have run a tunnel from the foot of their incline to the line between them and Brown, where they broke through into the works of Brown, on the main lead, and are now taking out very rich gravel. This claim has been singularly unfortuate. The owners have, for the last two years, been running tunnels in every direction, yet have never been able to strike anything that would pay more than expenses, and often not that. At last they concluded—after Brown had reached their line on good pay—to run a tunnel through to Brown's "breast," and there take up the lead where Brown had left off. They completed the tunnel about two weeks ago, and now they are receiving the rich reward for their labors, which can easily be told by the smiling faces they wear.

At this point the obliging expressman stamps his foot for me to hurry up and bring my letter to a close.

WASHTENAW.

TO MR. AND MRS E. L. BRADLEY.—A bright bud of immortality plucked from off its parent stem, and borne by angel hands on high, to bloom more sweet, to unfold in more perfect beauty in the celestial bowers of spirit life.

Her disease was remittent fever, of the worst type, which baffled the skill of medical science, and her sufferings were indescribably intense; yet ere "the silver chord was severed," the spirit world seemed opened to her gaze, and at the closing scene all was calm and peaceful as without a struggle or a moan she passed away.

Possessing a happy disposition, and an intellect far in advance of her years, she was deeply endeared to all. And though, with sorrowing hearts, and many bitter tears you wreathed the loved form that had held the immortal spirit, around which the tendrils of affection were so closely twined, with beautiful flowers, and laid it away in the church yard, yet you know that Laura sleeps not there, but in a fairer, better world than this.

"Will spend the endless ages of eternity."

You will miss, oh, sadly miss, the echoings of her footsteps, and the gentle tones of her voice, and the merry laugh and song, that have made the home circle so joyous, will be heard no more. Yet, in the quiet hours when all is peaceful and serene, spirit voices from, "over the river" will whisper the consoling words, "not dead, but living still."

May the sweet dove of peace fold her wings within the hearts of the bereaved parents, who so deeply mourn her early departure, and may she sing to them her song of hope, and faith forever more.

CAPITAL.—If the editor of the Santa Clara *News* has as much capital in pocket as on the brain he can discount the Rothschilds. He fills his paper with columns of matter to prove that San Jose is, and ought to be, the capital of California.

DR. W. J. KNOX, Senator from Santa Clara county, died at San Jose on the 13th instant. He was highly respected as a man, citizen and legislator. His death may change the political complexion of the State Senate, though it will not if those elected as Union are faithful to their trusts.

FORNEY has got him! The indomitable "Occasional," who has grown into a periodical, has solved the riddle. The editor of two papers, "both daily," has written an editorial for one of them. General Grant read the editorial. It was the very thing he has been in search of for a long time. He did not know what manner of man he was politically till he perused that production, and he at once exclaimed, "Them's my sentiments." He has discovered himself through the medium of Forney. He has seized himself by the collar, and holds on tenaciously. Forney says this is the fact. He has the reputation of knowing a thing or two. This is the thing he knows. It is all right. The future Grant is a production of the former eulogist of Jeff Davis. He has been regenerated—born again—Forney is his father. The process by which this discovery has been made has not been revealed. The Robertsian system which the distinguished explorer employed in the Forrest divorce case is very efficacious. Was not the General-in-Chief drugged before the editorial in one of my papers, "both daily," was submitted for his consideration? We do not pause for a reply. Another contradiction will soon be on the way, unless the sorely badgered General has given up in despair, and resigned himself to his sad fate.—*Alta.*

IN BONDS.—A novel by Laura Preston, A. Roman & Co., San Francisco. This book, elegantly printed in large, clear type, on excellent paper, has been some time upon our table. It is at once a delight to the eyes and an honor to the publishers. Though evidently by one not a veteran in the ranks of fiction, it is a work of real power. The plot, though not exceedingly deep or intricate, nor prooable, is not without interest and has a considerable measure of dramatic power. The scene is laid chiefly in the South, and many graphic and startling pictures of the effects of slavery, are well presented. Some characters of strongly marked individuality, if not originality, are well depicted, and preserved, and rounded out. The moral tone and aim of the book are of the highest quality, and those who read it can hardly fail to be made better by its genial, kindly, christian spirit. We ask for it, as a home production, a kindly greeting and extensive reading, confident it will find a warm place in all true hearts.

ABREAST THE TIMES.—Not to be outdone by the best a circle has been started in our town. Six young gentlemen have had two sittings about a pine table, and both times it has tipped vigorously. When the question was asked, is there a spirit present, one side of the table rose two or three inches three times in succession. When asked to spell the name, the alphabet was called, and at A and L the table tipped. It was supposed that the spirit of Abraham Lincoln was present, and various political questions were asked. It was before the Eastern news arrived, and the information was given that New York had gone Democratic by 15,000. Also that Grant would be next President and that California would go for him by 5,000 majority. The telegraph says that New York has gone as foretold, and in due time, doubtless, the other predictions will be made good.

IN DUE FORM.—Alaska was handed over to Gen. Rosseau on the 18th of October. The Russian flag was saluted and lowered, and the American flag raised and saluted. Gen. Rosseau's son had the honor of pulling the ropes to hoist "old glory." The Russian flag was very reluctant to come down. After starting it got foul and stuck. A third attempt was made before a Russian sailor could reach the flag by climbing the guy of the flag-staff, and when at last he seized it it was torn in two, and instead of falling to the ground floated off on the breeze. The Princess Maksatoff was present and wept as the flag of her country came down. Gen. Rosseau is on his way back to San Francisco, and Gen. J. C. Davis is in command. Alaska is part of this Military District, under command of Gen. Halleck. General Davis is to examine and report upon the resources of the region, and the best ports, &c.

DURCH FLAT ENQUIRER.

THE SWANEY-SEALE CASE.—The Mariposa *Mail*, a Democratic paper, politically opposed to Mr. Swaney, has the following regarding the charges which have been anonymously reported abroad against him:

We notice in the Stockton and some of the San Francisco papers, exaggerated and falsely colored statements, purporting to be facts in evidence in this case. It appears that those statements were furnished by some person here, to a Stockton paper, as facts developed on the examination of the parties. It is proper to say that, with the exception of the medical testimony as to the contents of stomach of deceased, not one of the facts as given in the papers below appeared in evidence. The correspondent must have drawn upon his imagination, or some equally authentic source, for his facts. There is much difference, sometimes, between the thoughtless and random assertions of excited people on the street, and the depositions of cool-headed persons testifying under the solemnity of an oath In a matter involving the honor and the life of a fellow being, men should be at the pains, if they must publish testimony before trial, to publish it correctly and without any false coloring.

Mr. Swaney also publishes a card, of which the following is the material portion:

Under the circumstances in which I am placed, it may not be considered by a generous public, criminal, unmanly or cowardly in me to address to you a few lines: not in defense of the grave charge made against me, for this is not the occasion, but simply to counteract to some extent, if I can, the unjust and cruel, not to say malicious, fabrications and exaggerations that have obtained circulation and are busily being circulated, to the hindrance of justice, the destruction of my character and blasting of all hopes for that impartial investigation of the charges made against me, that is guaranteed by the laws of the land to every citizen of the realm. It is sufficient on this occasion for me to say that I am charged with no less an offence than that of murder—that I am imprisoned upon that charge (though the imprisonment is to some extent voluntary on my part), and that I am innocent of the charge. The law does, and every good citizen ought to, presume my innocence until after trial and conviction. It is the pernicious and damaging effect of the trampling upon this most just presumption of the law, by putting forth fabricated, exaggerated and cruelly untrue statements of fact, and, of course, illegitimate and erroneous conclusions, in regard to my case, that I complain of. I ask not for sympathy, I ask for justice. I ask for a suspension of your judgment until I have had an opportunity of being heard before that tribunal of whose adjudication may of right be regarded as legitimate and conclusive, when, I trust, I shall be able to vindicate my innocence, unless I am disabled by persecutions so relentlessly and cruelly carried on against me, in a manner that I cannot meet them. I am sensible that it would be indelicate at least, and perhaps indiscreet in me, in my present embarrassing and mortifying situation, to charge complicity amongst enemies to do me irreparable injury, by making false and unfounded statements and procuring general circulation of them, in relation to my case; but I may with propriety ask if it is manly or humane, or the duty of any claiming a decent respect for themselves as citizens or men, to destroy my character and imperil my very life by overwhelming my cause with prejudgments and prejudices, while I am disabled? Innocent though I am, I feel painfully the weight of suspicion cast upon me, which a thousand acquittals would not remove. There is no indictment for murder in the first or any other degree. I have not met my accusers "face to face." I am not indicted or tried, and whatever may be the result of a trial I must submit to it. The public will then have a right to call me a felon, if the accusation shall be sustained; but whether acquitted or condemned, I shall still *know* that I am not guilty.

WATER COMING.—The Yuba ditch is running fourteen hundred inches of water at present, and three or four claims are working day and night at Canyon Creek and Gold Run. Very little is coming yet in the Dutch Flat ditch. But our miners are very busy preparing and many are now ready for the fluid.

NEWS.—We hear that a new Union newspaper is to be started in Auburn about the first or middle of December. The proprietorship will be in the hands of men of experience in the business, and the editor will be of the first order of talent. Let the friends of the Union prepare for its advent.

ON TRIAL.—Mr. Rogers, the constable who was wounded in attempting to arrest James Sexton last Spring at Cisco, and who killed Sexton, is now on trial at Auburn. It is supposed that the verdict will be justifiable homicide, and that the trial will end to-day.

SETTLED.—The Supervisors of Placer county, upon the belief that the law under which the C. P. R. R. was assessed for 1866 and 1867 was unconstitutional, have settled the matter by accepting from the R. R. Company $6,000 a mile. The judgment of the county against the R. R., now before the Supreme Court is vacated.

THAT SHOWER.—The meteors did really come. We hear from them in various parts of this State and at the East. We were not of the number of night hawks who saw them. Over fifteen hundred an hour are reported as counted by Professor Watson, of the Michigan Observatory, but there were many more.

COMMERCIAL BANQUET.—The dinner given by the San Francisco Chamber of Commerce last week was a grand affair. Commerce was extolled to the full of its merit, and many good things were said

GILROY HOT SPRINGS.

The editor of the San Jose *Mercury* who has recently visited these springs, describes them as follows:

Thirty miles by stage over the level valley belt that stretches away to the south of San Jose, then a brief rest, followed by a mountain ride over a road singularly picturesque, wild, rough and rocky, of fourteen miles or thereabout—and we are at the wonderful Gilroy Hot Springs. We say wonderful with a keen perception of the full significance of the word, and we do not intend to modify it in the least. This seething, steaming fountain of mineral water, medicated in some vast laboratory of nature, and gushing thus from the mountain side, is indeed a source of wonder and mystery.

Two years ago these springs were scarcely known to the public. A few persons—hunters, mostly—visited them occasionally, for the purpose of enjoying the fine trout fishing and hunting in the vicinity. The present owners, Messrs. Roop & Oldham, on coming into possession of the property, immediately commenced the work of improvement. Fine roads and winding paths were excavated in all sorts of apparently impassable places. A comfortable hotel was erected together with some twelve or fifteen plain but neat little cottages, for the accommodation of visitors. These cottages are scattered promiscuously among the trees, presenting a cheerful, townlike appearance. The main hotel contains the dining-room for the whole place The table is constantly supplied with fresh game, and all the luxuries of the market. Bathing houses have been erected, with plunge baths for the reckless, and tubs and other contrivances for the less hardened.

The springs are situated on the right slope of the Coyote Canyon, about two hundred feet above the bed of the stream. She hills on either side rear their lofty summits in majestic beauty toward the clouds, and are thickly studded with live oak pines and native shrubbery. Nature has done wonders to enrich the place with charming scenery; enterprise will accomplish the rest.

The water which flows from the hot spring is three inches in volume, forming quite a steaming cataract as it flows down the gulch. The temperature is uniform, scarcely varying two degrees from 110 Fahrenheit. The water contains soda, iron, sulphur and several other ingredients, but it is not unpleasant to the taste, and visitors soon prefer it to pure water. The sensation of heat together with the escape of sulphuric vapor, is almost overpowering, to one first entering the bath. The water in the plunge bath is breast deep, and so clear that the nearest sighted individual can see distinctly to count his toe-nails without the aid of spectacles. A singular feature of this mineral spring is, at a few feet from where it gushes forth, there is a spring of pure cold water. There are a dozen or more of these pure water springs within a short distance of the hot spring, remarnable for the coldness and purity of their water.

ATTACKED BY A CALIFORNIA TIGER.—The Sonoma *Democrat* of November 9th says:

A few days ago Messrs. Hodges, Lague, Lovejoy, and a couple of other gentlemen residing in this vicinity, went on a visit to the lower counties. While camping out one night about 8 miles from San Luis Obispo, Hodges, who was sleeping with Lague, was suddenly awakened by the outcries of his companion and the ferocious growling of some wild beast. He found the brute in bed with them, standing over his face, and having hold of Lague by the arm. Mr. Hodges instantly jumped up and seized it by the neck, and began pounding and kicking it so vigorously that the beast, a large California tiger or lion, released its grasp of Lague and put off into the woods. The wounded man's arm is very painfully injured, although not severely. Lovejoy, who is a crack shot, was some distance off at the time. He tried hard to draw a bead on it, but couldn't do it. Hodges, during the struggle was afraid to shoot for fear of hitting his companion. It strikes us that camping out is uncomfortably perilous in that section.

Two gentlemen, one named Woodcock, the other Fuller, happening to see an owl, the last said,

"That bird looks very much like a Woodcock."

"You are very wrong," said the first, "for it's Fuller in the head, and Fuller in the eyes, and Fuller all over."—Sacramento *Record*.

Why will people persist in re-vamping, and spoiling a really good thing? The old story is this. The Rev. Mr. Jay, and Rev. Mr. Fuller, going through the woods heard an owl; says Fuller, "is it the voice of joy that I hear?" No says Jay, "it is Fuller in the head, Fuller in the eyes, and Fuller in the body."

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

SPECIAL MEDICAL NOTICE.—DR. CHARES H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street next door to the Occidental Hotel, San Francisco. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, next door to the Occidental Hotel, San Francisco.
Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.
My Female Monthly Pills were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office. Price $5 with full directions on each Box. Sent by mail or express.

PRIVATE MEDICAL AID.
QUICK CURES AND MODERATE CHARGES.
DR. W. K. DOHERTY'S
Private Medical and Surgical Institute,
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.
Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Disorders.
TO THE AFFLICTED.
DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.
To Females.
When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, s, palpitation of the heart, irritability, nervousnes extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.
To Correspondents.
Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible.
If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.
Address,
W. K. DOHERTY, M. D.,
San Francisco, California.
Spermatorrhœa.
DR. DOHERTY has just published an important pamphlet embodying his own views and experiences in relation to Impotence or Virility, being a short treatise on Spermatorrhea or Seminal Weakness, Nervous and Physical Debility consequent on this affection, and other diseases of the Sexual Organs.
This little work contains information of the utmost value to all, whether married or single, and will be sent FREE by mail on receipt of six cents in postage stamps for return postage.

A great French Physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body, and breed disease."
Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as
PLANTATION BITTERS.
This splendid tonic is now used by all classes of people for every symptom of a "Stomach out of order."
The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupify and plant the seeds of disease and death.
Important Certificates.
"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y.

G. W. D. ANDREWS,

The Planfation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer.
The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.
Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our private stamp is UNMUTILATED over every cork.

DUTCH FLAT ENQUIRER.

A FRENCH ROMANCE.

About a month ago a young man, salesman in one of the leading houses in Paris, saw a young lady enter, to whom, during the past eight or ten days he had sold a number of dresses, shawls, etc. By her accent, he surmised that she must be a New York lady. The stranger was very pretty, and naturally the young man made himself agreeable and attentive. Whenever she visited the store, she always addressed herself to him, and while examining the articles he placed before her, talked much. The day we speak of she was far less communicative than usual, and after having made a somewhat hurried selection, she said to the clerk:

"I shall be at the hotel in one hour; here is the address. Be kind enough to accompany the porter when he brings those articles."

With these words she bowed reservedly, and hastily left the store.

The young man was at a loss what to think. However, at an early hour he entered the apartment of the American lady, who invited him *sans facon* like an acquaintance of long standing, to lunch with her. Although thinking the customer's manners somewhat queer the clerk accepted. While partaking of tea and cakes, the young lady somewhat abruply addressed her guest, saying:

"Sir, are you brave enough to protect a woman against any insult to which she might be subjected? Answer me with truth and candor."

"Without conceit, I say yes," answered the young man.

"Very well. You work in order to make money. Is it not so?"

"Certainly."

"This is what I wish to propose: I am alone, or almost alone, in the world; my fortune or my action concerns no one but myself; I wished to see the exhibition and know Paris. But I perceive that there is nothing more difficult than for a woman to be in your country without a protector. You please me, and, if you do not object, you shall be my champion. I will repay you for your lost time."

The young man tried to speak, but she immediately resumed:

"I insist on remunerating you; this is strictly a matter of business; I regard it in that light. Accept or decline. What shall it be?"

"I accept," answered the clerk, after a moment's hesitation.

"I am satisfied," continued the stranger, "that you are a gentleman and will not make yourself ridiculous by making love and flattering me, for I warn you that the very first compliment you pay me ends our contract. Is it agreed?"

"Madam, I am at your service."

"From to-morrow."

"From this moment! I require only time to write to my employers."

And the terms of this extraordinary compact were accepted by the latter.

The clerk was charming; he proved himself intelligent, attractive, delicate, and without all that small talk men generally delight to inflict on women. In fact the American lady was truly delighted with the choice she had made. Two weeks ago she handed the amiable clerk a heavy roll of bills, and they separated, mutually pleased with each other.

But it happened that as the lady was about to embark for England, thence to embark for America, a commissioner hastened toward her and inquired if she was Miss X. Upon answering in the affirmative, he placed a small box and a letter. The box contained a diamond set, the letter a few words only, but so well chosen to express true affection that the young lady started, not for London, but back to Paris. It is needless to say that the letter was from the young clerk, who had taken this method of returning the money forced upon him by the young lady for services rendered. (He had not given her his address, thinking the matter was ended.) He was not likely to have returned to his former employer. Ultimately she learned that he had taken in another house a situation far inferior to the one he had formerly occupied. Probably till then she was undecided as to her course, for when she heard this, her mind was made up. She wrote; he came at once.

They will be married soon.

OUTWITTED.—An old gentleman over seventy-five years of age, sends us the following for publication:

Once there was a Yankee who was in the habit of using rum and tobacco very freely. One day he got out of rum and tobacco, and called on his neighbor, the merchant, to get some. The merchant would not let him have any. He then called on the Devil:

"Here I am," said Satan, "what is your wish?"

"I wish," said the Yankee, to make a bargain with you."

"Right," said Satan, "what are your conditions?"

"They are simple," said the Yankee: "If you will give me three wishes, I will give you my soul!"

"Good," said Satan, "you shall have your wishes. What is your first wish?"

"I wish," said the Yankee, "you would give me a gallon of good old West India rum."

"Here it is," said Satan, "take it. What is your second wish?"

"I wish you would give me two pounds of good old Virginia smoking tobacco."

The Devil gave that also, and asked for the third wish:

"When I die," said Yank, "I wish you would give me a pass to Heaven."

"Ah!" said Satan, "I cannot send you to Heaven. You Yankees are too sharp fot me to trade with. Give back my rum and tobacco."

"No," said the Yankee, "you have forfeited the two first conditions. You said it was a bargain, and I shall hold you to it."

"Well," said the Devil, "a gallon of rum and two pounds of tobacco is no great loss, but you will never catch me trading with a Yank again. I have traded with men from all parts of the earth, but never got cheated before. I wodner from what dark corner on earth this damned Yankee came from. I must put the curse out of the way, or he will soon outwit and dethrone me."

SAID a young fellow indignantly when called a boy:

"Don't you call me a boy; I've chewed tobacco these six years."

"NOBILITY OF LABOR."—Rev. H W. Beecher recently preached a sermon on the "Nobility of labor," in which he said that more public men of eminence had started from the business of typesetting than probably any other occupation. Beecher's statement is very true A printer stands, as it were, in a field of information. Knowledge, it may be said, has to pass through his fingers and before his eyes before it is given to the world. If printers do not become proficient in their business and obtain a fund of general information in regard to the world's history, and especially the current events of the day, it is their own fault. They have opportunities that no other class or profession can boast of, and if they fail to improve them it is because of their own indolence and immorality.

A WIFE WHIPPER.—We are informed, says the Grass Valley *Union*, that one Christopher—we regret that we cannot give the brute's name in full—recently gave his wife an unmerciful whipping in this place. The wife bears the reputation of being an industrious and a well-behaved woman; and this loafer of a husband pounds her when he gets drunk. After the last whipping he attempted to commit suicide, and hacked his throat several times with a razor, but unfortunately did not make a good job of it.

SKELETON OF A MASTODON FOUND.—The Virginia *Enterprise*, November 5th, says that the skeleton of a mastodon, in an excellent state of preservation, has been discovered in Owen's Valley, about three miles from Fort Independence. The bones of the huge beast were found by a party of men who were engaged in digging a pit for a wheel to run an arastra, at the depth of ten or twelve feet, in a deposit of sand and gravel. By stretching out the bones of the leg along the ground it appeared that the animal when living must have been at least fifteen feet high.

PASSING COMPLIMENTS.—A Georgia editor calls a cotemporary "an odious fungus," and wants to know "how much swamp land is worth wherein he was to his slimy maturity." Whereupon the fungus answereth thus: "Our friend of the —— can never forgive us for going his bail when he was accused of robbing his mother's coffin of its silver ornaments."

A WIFE who often stormed at her husband, was sitting with him at the breakfast table, when suddenly, amid coughs, she exclaimed:

"Dear me! a bit of pepper has got into my wind-pipe!"

"Hurricane pipe, you mean," coolly rejoined her sarcastic spouse.

THE Philadelphia *Ledger*, which is one of the largest printing establishments in the United States, was started in 1836 by three journeymen printers, two of whom are yet living and are millionaires.

O'CONNELL met a conceited literary friend, and exclaimed: "I saw a capital thing in your last pamphlet." "Did you?" eagerly replied his delighted listener, "What was it?" "A pound of butter!"

MISCELLANEOUS ADVERTISEMENTS.

A CARD FROM THE AMERICAN WATCH COMPANY
Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attemptep repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

MEDICAL.

THE SCIENCE OF HEALTH!
Every Man His Own Physician.

HOLLOWAY'S PILLS,
AND
HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic biseases, are eradicated, and a clear and transparent surface regained by the restorative actton of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers,
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

☞ Dealers in my well-known medicines can have Show Cards, Circulars, &c., sent FREE OF EXPENSE, by addressing Thomas Holloway, 80 Maiden Lane, New York. k9-1y

REMOVAL.
DR. TOZER,
Formerly of Lock Hospital, London,

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets, to

108 MONTGOMERY STREET,
Adjoining Occidental Hotel,

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seatof the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

His remedies for all FEMALE COMPLAINTS have been tried in this City and State for the last fifteen years, with the greatest success.

His FEMALE PILLS are unrivaled in the cure of suppression of the monthly sickness. Price, $5 per box—to be had at the office only. Sent by mail or express on receipt of price.

DR. J. C. YOUNG, IN 1850,
For the cure of all Private Diseases and
ALL FEMALE COMPLAINTS.

CONSULTING OFFICE,
536 WASHINGTON STREET,
SAN FRANCISCO, ... CALIFORNIA.
NO CURE, NO PAY.

Consultation by letter, or otherwise, FREE. For direction of letters, see below.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Private Medical Institute,
No. 536 Washington street, San Francisco, Cal.

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.
